

As your community hospital, our No. 1 priority at Warner Hospital and Health Services is to keep our patients and families, health care workers, and staff safe.

As you read and hear more about the coronavirus, or COVID-19, in national and local media, we wanted to reassure you that we are closely monitoring the situation and stand ready to respond should patients present with potential COVID-19. While COVID-19 itself is new, preparing for responses to disasters, including potential epidemics and pandemics is not new for our hospital.

Warner Hospital and Health Services is working closely with the DeWitt-Piatt County Health Department, DeWitt County EMA, the Illinois Department of Public Health (IDPH) and the CDC to prepare for COVID-19, following all daily updates and guidance.
